## Web Solutions :

### Web Site Design

#### a. BASIC WEBSITE

Basic web site is a template based web site with up to 5 pages. Our graphic designers have created hundreds of design for many industries and themes which you can select from. Once you select a theme, our graphic designer then work with you to change images, colors and other modifications required to the web site. You are responsible to provide the contents for the web pages. Basic web sites have 2 weeks of free support after the site has been launched.

#### b. Value Plus Website

Value plus web site is a template based web site with up to 10 pages. Our graphic designers have created hundreds of design for many industries and themes which you can select from. Once you select a theme, our graphic designer then work with you to change images, colors and other modifications required to the web site. You can also have 1 form to collect data with upto 20 fields and simple flash in the web site header. If you wish to place any video or audio clippings in your web site, we will be happy to integrate the same for you. Value Plus web sites have 2 weeks of free support after the site has been launched.

#### c. Premium Website

Premium web site is a template based web site with up to 15 pages. Our graphic designers have created hundreds of design for many industries and themes which you can select from. Once you select a theme, our graphic designer then work with you to change images, colors and other modifications required to the web site. You can also have 2 forms to collect data, each with up to 20 fields and simple flash in the web site header. If you wish to place any video or audio clippings in your web site, we will be happy to integrate the same for you. Premium web sites have 1 month of free support after the site has been launched.

#### d. Full Flash Site

Full flash web site is a custom built web site with up to 6 pages. Our graphic designers have great experience in creating full flash web sites. We work closely with you to first create basic theme and illustration. Once the design is approved, our designers create the flash site and link various pages. IF you wish, we can also provide the flash site on the CD which can easily played in your laptop for demo purposes to your clients. In addition to any video or audio clippings, you can also have 2 forms to collect data, each with up to 20 fields. Full flash web sites have 1 month of free support after the site has been launched.
